

Request for Proposal (RFP)

Project Overview

Project Title: 'RFP for 3003 Aluminum Sheet Supply from Metal Supermarkets to Nexa'

Client: Nexa

Industry: aluminum sheets

Date: October 26, 2025

1. Introduction

Introduction

This Request for Proposal (RFP) is issued by Nexa, a mid-sized enterprise operating within the aluminum sheets services industry. Our operations are primarily based in Buffalo, New York, where we have established a strong presence and reputation for delivering high-quality aluminum sheet products to our clients.

Our business is currently facing a critical need. We require a reliable and qualified supplier for 3003 Aluminum Sheet, a material that is essential to our operations. The consistency of the product's quality, its timely delivery, and competitive pricing are of utmost importance to us. Any disruption in the supply of this material could significantly impact our operations and customer satisfaction.

Our strategic goal is to establish a long-term partnership with a supplier who can meet our specific needs. We are currently considering Metal Supermarkets, given their expertise in aluminum sheets and their capacity to handle orders of varying volumes. Our target budget for this partnership ranges from \$10 to \$450 per unit of 3003 Aluminum Sheet.

The desired outcome of this RFP process is to secure a supplier who can consistently deliver high-quality 3003 Aluminum Sheet to our Buffalo, New York location. We are looking for a partner who understands our business needs, aligns with our strategic goals, and can contribute to our continued growth and success in the aluminum sheets services industry.

We appreciate your interest in this RFP and look forward to reviewing your proposal.

2. Scope of Work

Scope of Work

The selected vendor will be expected to fulfill the following tasks, meet the specified technical standards, achieve the outlined performance metrics, and provide the additional services as described below:

Tasks and Deliverables

The vendor is required to supply 3003 Aluminum Sheet from Metal Supermarkets, located in Buffalo, NY. The vendor should ensure that the price range remains within \$2.75 per lb. The vendor is also responsible for the delivery of the product to Buffalo, New York.

Technical Specifications

The product supplied must meet industry-standard specifications and quality requirements. The vendor is expected to adhere to these standards throughout the contract period to ensure the delivery of high-quality 3003 Aluminum Sheets.

Performance Metrics

The vendor's performance will be evaluated based on the following key performance indicators:

1. On-time delivery to Buffalo, New York.
2. Quality compliance rate of greater than 98%.
3. Competitive pricing within the range of \$10 - \$450.
4. Responsive customer service.

The vendor should maintain regular contact with the client through buffalo@metalsupermarkets.com.

Additional Services

Beyond the delivery of the product, the vendor is required to maintain a consistent supply of 3003 Aluminum Sheet. The vendor must also provide regular quality reports to ensure transparency and maintain the high standards expected. This will allow for any necessary adjustments to be made promptly, ensuring the continuous supply of quality products.

3. Vendor Qualifications

Qualifications

The vendor must meet the following minimum qualifications:

Experience: The vendor must demonstrate a proven track record in supplying 3003 Aluminum Sheet or similar products. For instance, Metal Supermarkets claims expertise in aluminum sheets, which is a relevant example of the experience we seek.

Certifications: The vendor must hold an ISO 9001 or equivalent quality management certification. In addition, industry-specific certifications, as applicable, are also required. These certifications will serve as proof of the vendor's commitment to quality and industry standards.

Skills: The vendor's team should possess the following skills:

Expertise in manufacturing/distributing 3003 Aluminum Sheet: The vendor's team should have extensive knowledge and experience in the production and distribution of 3003 Aluminum Sheet.

Quality control and assurance processes: The vendor should have a robust quality control and assurance process in place to ensure the highest quality of products.

Logistics and supply chain management: The vendor should have a strong understanding and capability in managing logistics and supply chain to ensure timely delivery of products.

Ability to deliver to Buffalo, New York: The vendor should have the logistical capability to deliver products to Buffalo, New York.

Technical support and customer service: The vendor should provide excellent technical support and customer service to address any issues or concerns.

Compliance or Regulatory Requirements: The vendor must comply with all applicable laws, regulations, and standards related to the production and distribution of 3003 Aluminum Sheet. The vendor should also be prepared to provide evidence of such compliance upon request.

4. Project Timeline

Section III: Project Timeline

The following timeline provides an overview of the key dates and milestones for this project. Please note that these dates are estimates and may be subject to change based on project requirements and progress.

Project Kickoff: The project will officially commence on November 02, 2025. This will involve an initial meeting to discuss project objectives, deliverables, and to establish communication protocols.

Initial Delivery (MVP): The Minimum Viable Product (MVP) should be delivered within 60 days of the project kickoff. This milestone will be followed by a review and feedback session to ensure the product meets the outlined requirements.

Quality Inspection and Acceptance Testing: Upon delivery of the MVP, there will be a quality inspection and acceptance testing phase. This process should be completed within 5 business days of the MVP delivery. The purpose of this phase is to identify any potential issues or improvements that need to be addressed before the final product is delivered.

Final Product Delivery: The final product is expected to be delivered by January 24, 2026. This will be followed by a final review and acceptance phase to ensure all project requirements have been met.

Flexibility and Constraints:

While we strive to adhere to the outlined timeline, we understand that unforeseen circumstances may arise, potentially impacting the project schedule. We are committed to maintaining open and transparent communication throughout the project to manage any changes effectively.

However, it is important to note that the final product delivery date of January 24, 2026, is a firm deadline due to subsequent business operations that depend on the completion of this project. Therefore, any adjustments to the timeline must ensure that this end date is met.

Milestone	Description	Target Date
-----------	-------------	-------------

Project Kickoff	Initial alignment	November 02, 2025
MVP Delivery	First prototype	Initial delivery: Within 60 days
Testing Phase	QA and user testing	Quality inspection and acceptance within 5 business days of delivery
Final Deployment	Production release	January 24, 2026

5. Evaluation Criteria

Section V: Evaluation Criteria

The purpose of this section is to outline the criteria that will be used to evaluate and score the proposals submitted in response to this Request for Proposal (RFP). The evaluation process will be conducted in a comprehensive, fair, and impartial manner.

The evaluation criteria have been weighted to reflect their relative importance in the overall decision-making process. The weights assigned to each criterion are as follows:

Technical Capability (30%): This criterion assesses the proposer's ability to meet the technical requirements outlined in the RFP. Proposers should demonstrate their understanding of the project's technical needs and their ability to deliver on these requirements.

Pricing Competitiveness (30%): This criterion evaluates the competitiveness of the proposer's pricing structure. Proposers should provide a detailed and transparent pricing proposal that demonstrates value for money.

Delivery Reliability (20%): This criterion assesses the proposer's track record and ability to deliver on time. Proposers should provide evidence of their reliability in meeting delivery schedules in previous projects.

Quality Assurance (15%): This criterion evaluates the proposer's quality assurance processes and procedures. Proposers should demonstrate their commitment to quality and their ability to meet or exceed the quality standards outlined in the RFP.

Customer Service (5%): This criterion assesses the proposer's approach to customer service. Proposers should provide information on their customer service policies, procedures, and track record.

In addition to these weighted criteria, proposers should note that certain capabilities are required, while others are optional. Required capabilities are those that are essential for the successful completion of the project. Optional capabilities are those that would enhance the project but are not essential.

The evaluation process will also consider qualitative factors such as the proposer's understanding of the project, their proposed approach, and their ability to add value.

Please note that while the evaluation process will be thorough and rigorous, it will also be flexible enough to accommodate any additional notes or requirements that may be provided in the context of the RFP.

The evaluation process will be conducted in a manner that ensures the integrity of the procurement process and the fair treatment of all proposers. The decision of the evaluation committee will be final and binding on all parties.

Criteria	Weight (%)
Technical Capability	30%
Pricing Competitiveness	30%
Delivery Reliability	20%
Quality Assurance	15%
Customer Service	5%

Non-negotiables:

- Must be able to deliver to Buffalo, New York
- Product must meet specification: 3003 Aluminum Sheet
- Pricing must be competitive and within budget: \$10 - \$450

6. Pricing Details

Section 4: Pricing Details

In this section, we outline the requirements for how vendors should structure their pricing. Please adhere to these guidelines to ensure your proposal is considered.

4.1 Pricing Format and Currency

All prices must be quoted in United States Dollars (USD). The pricing format should be a detailed line-item breakdown with unit costs and quantities. This will allow us to fully understand the cost of each component of your offering.

4.2 Contract Length

The contract length for this RFP is expected to be one (1) year. Please ensure that your pricing reflects this duration.

4.3 Cost Categories

Your pricing proposal should include, but not be limited to, the following cost categories:

1. Unit price for 3003 Aluminum Sheet
2. Shipping and logistics to Buffalo, New York
3. Taxes and duties
4. Quality inspection fees (if applicable)
5. Rush delivery fees (if applicable)

Please provide a detailed breakdown of each of these cost categories. If there are any additional costs not listed above, please include them in your proposal with a clear explanation.

4.4 Volume Discounts

If you offer volume discounts, please include this information in your proposal. We are interested in understanding how these discounts would apply to our potential order quantities.

4.5 Budget Range and Payment Terms

Our budget range for this project is between \$10 and \$450. Please ensure that your pricing falls within this range. The payment terms will be Net 30 days from delivery and acceptance.

In conclusion, your pricing proposal should be clear, detailed, and adhere to the guidelines outlined above. We look forward to reviewing your competitive pricing structure.

7. Submission Instructions

A proposal must include the following in their response:

1. A brief history of the proposing entity, including general background and past deals.
2. A statement substantiating the resources of the proposing entity and the ability to carry out the scope of work requested within the proposed timeline.
3. Proposed fee structure, including billing rates, reimbursable expenses, etc.
4. At least one (1) example of work.
5. A statement of conflicts (if any) the proposing entity or key employees may have regarding these services. If no potential conflicts of interests are identified, please state so.
6. Preferred: References including contact information.
