

Request for Proposal (RFP)

Project Overview

Project Title: 'RFP for 3003 Aluminum Sheet Supply from Metal Supermarkets to Nexa'

Client: Nexa

Industry: aluminum sheets

Date: October 25, 2025

1. Introduction

Introduction

Nexa is a mid-sized enterprise operating in the aluminum sheets services industry. Our operations are primarily based on the provision of high-quality aluminum sheets, with a particular focus on 3003 Aluminum Sheet. We have built a reputation for our commitment to quality, timely delivery, and competitive pricing, which are fundamental to our business operations and overall success.

Recently, we have identified a business need that requires immediate attention. We are in need of a reliable and qualified supplier for 3003 Aluminum Sheet. This need arises from our commitment to maintain consistent quality, timely delivery, and competitive pricing for this critical material/product. Our operations heavily depend on this product, and any compromise on its quality or delivery could significantly impact our business.

In light of this, we have set strategic goals to address this need. Our primary goal is to establish a long-term strategic partnership with a supplier who can consistently provide us with the 3003 Aluminum Sheet. We are currently evaluating Metal Supermarkets, given their

expertise in aluminum sheets and their wide range of metal products. Our target budget for this partnership ranges from \$10 to \$450.

Our desired outcome from this partnership is to ensure a steady supply of 3003 Aluminum Sheet to our Buffalo, New York location. We expect the delivery of the product to be in line with our operational needs and within the set budget. This partnership is critical to our business operations and will contribute significantly to our continued success in the aluminum sheets services industry.

We look forward to receiving proposals that align with our business needs and strategic goals.

2. Scope of Work

Scope of Work

The vendor is expected to deliver the following as part of this Request for Proposal (RFP):

1. Specific Tasks and Deliverables:

The vendor is required to supply 3003 Aluminum Sheet sourced from Metal Supermarkets, Buffalo, NY. The quantity and pricing should be in accordance with the details provided. The vendor is expected to deliver the product to the specified location in Buffalo, New York.

2. Technical Specifications or Required Standards:

The 3003 Aluminum Sheet must meet industry-standard specifications and quality requirements. The vendor is expected to ensure that the product meets these standards before delivery. Any product that does not meet these specifications will be deemed unacceptable.

3. Quantifiable Performance Metrics:

The vendor's performance will be evaluated based on the following Key Performance Indicators (KPIs):

- On-time delivery to Buffalo, New York.
- Quality compliance rate of more than 98%.
- Competitive pricing within the range of \$10 - \$450.
- Responsive customer service.

The vendor is expected to maintain communication with the contact person at buffalo@metalsupermarkets.com.

4. Additional Services:

Beyond the delivery of the 3003 Aluminum Sheet, the vendor is also required to maintain a consistent supply of the product. Regular quality reports must be provided to ensure that the product continues to meet the required standards.

The vendor is expected to provide any necessary support related to the product and its delivery. This includes addressing any issues or concerns that may arise during the course of the contract.

By adhering to the above scope of work, the vendor will ensure a successful partnership that meets the needs and expectations of both parties.

3. Vendor Qualifications

QUALIFICATIONS

The vendor must meet the following minimum qualifications to be considered for this project:

Required Experience: The vendor must demonstrate a proven track record in supplying 3003 Aluminum Sheet or similar products. An example of this is Metal Supermarkets, which claims expertise in aluminum sheets. The vendor should provide evidence of their experience in this area.

Certifications: The vendor must hold an ISO 9001 or equivalent quality management certification. Additionally, any industry-specific certifications that are applicable should also be held by the vendor. Evidence of these certifications must be provided.

Relevant Past Projects or Case Studies: The vendor should provide examples of past projects or case studies that demonstrate their ability to successfully supply 3003 Aluminum Sheet or similar products. These examples should highlight the vendor's experience and success in this area.

Required Team Skills or Domain Expertise: The vendor's team should possess the following skills or domain expertise:

Expertise in manufacturing/distributing 3003 Aluminum Sheet

6. Quality control and assurance processes
7. Logistics and supply chain management
8. Ability to deliver to Buffalo, New York
9. Technical support and customer service

The vendor should provide evidence of their team's skills and expertise in these areas.

1. Compliance or Regulatory Requirements: The vendor must comply with all relevant compliance and regulatory requirements. Evidence of compliance with these requirements must be provided.
-

4. Project Timeline

Section III: Project Timeline

The following timeline has been established for the execution of this project. It outlines the key milestones, review points, testing or integration phases, and the overall project start and end dates.

Project Kickoff: The project will officially commence on November 01, 2025. This will involve an initial meeting to discuss the project's objectives, expectations, and to clarify any queries regarding the project.

Initial Delivery/MVP: The first major milestone will be the delivery of the Minimum Viable Product (MVP). This is expected to be completed within 60 days from the project kickoff. The vendor will present the MVP for review and approval.

Quality Inspection and Acceptance Testing: Following the delivery of the MVP, there will be a quality inspection and acceptance testing phase. This phase is expected to be completed within 5 business days of the MVP delivery. The purpose of this phase is to ensure that the product meets the specified requirements and to identify any potential issues or improvements.

Final Delivery: The final delivery of the project is scheduled for January 23, 2026. At this point, the product should be fully developed, tested, and ready for deployment.

Please note that while this timeline has been carefully planned to ensure the successful completion of the project, there may be some degree of flexibility required. This could be due to unforeseen circumstances or changes in project requirements. However, any changes to the timeline will be communicated and agreed upon by all parties involved.

In terms of constraints, the project end date of January 23, 2026, is fixed. Therefore, all tasks and phases must be completed and delivered by this date.

Milestone	Description	Target Date
Project Kickoff	Initial alignment	November 01, 2025
MVP Delivery	First prototype	Initial delivery: Within 60 days
Testing Phase	QA and user testing	Quality inspection and acceptance within 5 business days of delivery
Final Deployment	Production release	January 23, 2026

5. Evaluation Criteria

Section IV: Evaluation Criteria

The purpose of this section is to outline the evaluation criteria that will be used to assess and score the proposals received in response to this Request for Proposal (RFP). The evaluation process is designed to award the contract not necessarily to the proposal of least cost, but rather to the proposal that best meets the requirements of this RFP.

A. Weighted Evaluation Criteria

The evaluation of each proposal will be based on its conformance to the RFP requirements and the weighted criteria as follows:

Technical Capability (30%): The proposer's ability to meet the technical requirements of the RFP will be evaluated. This includes the proposer's demonstrated understanding of the project, the proposed methodology, and the feasibility of the proposed approach.

Pricing Competitiveness (30%): The proposer's pricing structure will be evaluated for its competitiveness, value for money, and alignment with the budget provided in the RFP.

Delivery Reliability (20%): The proposer's demonstrated ability to deliver on time and meet deadlines will be evaluated. This includes the proposer's past performance on similar projects and the robustness of their proposed delivery plan.

Quality Assurance (15%): The proposer's quality assurance processes and procedures will be evaluated. This includes the proposer's approach to ensuring the quality of the deliverables and their ability to meet the quality standards outlined in the RFP.

Customer Service (5%): The proposer's approach to customer service will be evaluated. This includes the proposer's commitment to customer satisfaction, their approach to resolving issues, and their communication processes.

B. Required vs. Optional Capabilities

Proposers must clearly distinguish between capabilities that are required to meet the RFP requirements and those that are optional or additional. Proposals that do not meet all required capabilities may be deemed non-responsive and may not be considered for contract award.

C. Qualitative Factors

In addition to the weighted evaluation criteria, the following qualitative factors will also be considered:

- The proposer's demonstrated commitment to innovation and continuous improvement.
- The proposer's financial stability and risk profile.
- The proposer's reputation and references from previous clients.

D. Additional Notes

At this time, there are no additional notes to be considered in the evaluation of proposals.

Please note that the non-negotiables will be added separately in the template. Proposers are advised to carefully review the non-negotiables before submitting their proposals. Proposals that do not meet the non-negotiables may be deemed non-responsive and may not be considered for contract award.

Criteria	Weight (%)
Technical Capability	30%
Pricing Competitiveness	30%
Delivery Reliability	20%
Quality Assurance	15%

Customer Service	5%
------------------	----

Non-negotiables:

- Must be able to deliver to Buffalo, New York
- Product must meet specification: 3003 Aluminum Sheet
- Pricing must be competitive and within budget: \$10 - \$450

6. Pricing Details

Section 5: Pricing Details

In this section, we require vendors to provide a comprehensive and detailed pricing proposal. The pricing proposal should be structured as per the following guidelines:

5.1 Pricing Format and Currency

All prices must be quoted in United States Dollars (USD). The pricing format should be a detailed line-item breakdown with unit costs and quantities. This will allow us to understand the cost structure more clearly and make an informed decision.

5.2 Contract Length

The proposed pricing should be based on a contract length of one year. Please ensure that the pricing is sustainable and competitive for the entire duration of the contract.

5.3 Cost Categories

The pricing proposal should include, but not be limited to, the following cost categories:

1. Unit price for 3003 Aluminum Sheet
2. Shipping and logistics to Buffalo, New York
3. Taxes and duties
4. Quality inspection fees (if applicable)
5. Rush delivery fees (if applicable)

Please provide a detailed breakdown of each cost category, including unit costs and quantities, where applicable.

5.4 Volume Discounts

We encourage vendors to include any volume discounts or incentives that may be applicable. If your organization offers such discounts, please provide a detailed explanation of the discount structure and the thresholds for each discount level.

5.5 Budget Range and Payment Terms

The budget range for this project is between \$10 and \$450. Please ensure that your pricing proposal falls within this range. The payment terms will be Net 30 days from delivery and acceptance.

We look forward to receiving your detailed and competitive pricing proposal. Please ensure that all information is presented clearly and concisely, in line with the guidelines provided in this section.

7. Submission Instructions

A proposal must include the following in their response:

1. A brief history of the proposing entity, including general background and past deals.

2. A statement substantiating the resources of the proposing entity and the ability to carry out the scope of work requested within the proposed timeline.
3. Proposed fee structure, including billing rates, reimbursable expenses, etc.
4. At least one (1) example of work.
5. A statement of conflicts (if any) the proposing entity or key employees may have regarding these services. If no potential conflicts of interests are identified, please state so.
6. Preferred: References including contact information.
