

Request for Proposal (RFP)

Project Overview

Project Title: 'RFP for 5052-H32 Aluminum Sheet 4x8 Supply from Alro Steel to Nexa'

Client: Nexa

Industry: aluminum sheets

Date: October 24, 2025

1. Introduction

Introduction

This Request for Proposal (RFP) is issued by Nexa, a mid-sized enterprise operating in the aluminum sheets services industry. Nexa has built a strong reputation for delivering high-quality services, and our operations are heavily reliant on the consistent supply of specific materials, particularly the 5052-H32 Aluminum Sheet 4x8.

Currently, we are facing a business challenge that necessitates the procurement of a reliable and qualified supplier for this critical material. Our operations depend on consistent quality, timely delivery, and competitive pricing for this product. Any disruption in the supply chain or compromise on quality can significantly impact our operations and, by extension, our clients.

Our strategic goal is to establish a long-term strategic partnership with a supplier who can meet our specific requirements. We are currently considering Alro Steel, a renowned distributor of metals, industrial supplies, and plastics, known for their wide range of aluminum sheets. Our aim is to secure a supply of 5052-H32 Aluminum Sheet 4x8 to our Buffalo, New York location.

We have set a target budget ranging from \$50 to \$450 per unit, and we expect the delivery of the first batch by October 31, 2025. This partnership is not just about fulfilling an immediate business need; it is about building a long-term relationship that will contribute to our operational efficiency and overall business success.

Through this RFP, we invite Alro Steel to provide a detailed proposal outlining their ability to meet our requirements, along with their pricing structure, delivery timelines, and other relevant details. We look forward to a potential partnership that will mutually benefit both parties and contribute to our shared success in the industry.

2. Scope of Work

Scope of Work

The vendor is expected to deliver the following:

Specific Tasks and Deliverables:

The vendor shall supply 5052-H32 Aluminum Sheet 4x8 from Alro Steel (Buffalo, NY). The price range should be within \$125 - \$400 per sheet. The delivery location is Buffalo, New York and the delivery deadline is October 31, 2025.

Technical Specifications or Required Standards:

The product must meet industry-standard specifications and quality requirements. The vendor is expected to adhere to these standards throughout the duration of the contract.

Required Integrations:

The vendor is required to integrate with the Alro Steel platform for supply chain management. The integration link is [Alro Steel](#).

Quantifiable Performance Metrics:

The vendor's performance will be evaluated based on the following key performance indicators:

1. On-time delivery to Buffalo, New York.
2. Quality compliance rate of more than 98%.
3. Competitive pricing within the range of \$50 - \$450.
4. Responsive customer service. The vendor should be reachable at 800-877-2576.

Additional Services:

Beyond the delivery of the aluminum sheets, the vendor is expected to maintain a consistent supply of 5052-H32 Aluminum Sheet 4x8. The vendor must also provide regular quality reports to ensure that the product meets the required standards.

3. Vendor Qualifications

Qualifications

The vendor must meet the following minimum qualifications to be considered for this project:

Experience: The vendor must demonstrate a proven track record in supplying 5052-H32 Aluminum Sheet 4x8 or similar products. We are particularly interested in vendors like Alro Steel that claim expertise in aluminum sheets.

Certifications: The vendor must hold an ISO 9001 or equivalent quality management certification. Additionally, any industry-specific certifications that are applicable should also be held by the vendor.

Relevant Past Projects or Case Studies: Vendors should provide examples of past projects or case studies that demonstrate their ability to successfully deliver on projects of similar scope and complexity.

Team Skills or Domain Expertise: The vendor's team should have expertise in manufacturing/distributing 5052-H32 Aluminum Sheet 4x8. They should also have robust quality control and assurance processes in place. Expertise in logistics and supply chain management is also required. The vendor must have the ability to deliver to Buffalo, New York. Additionally, the vendor should offer technical support and customer service.

Compliance or Regulatory Requirements: The vendor must comply with all applicable local, state, and federal regulations. They should also be able to demonstrate a history of compliance with these regulations.

Please note that failure to meet any of these qualifications may result in the disqualification of the vendor's proposal.

4. Project Timeline

Section III: Project Timeline

The following timeline outlines the key dates and milestones for this project. Please note that these dates are subject to change based on the progress of the project and any unforeseen circumstances.

Project Kickoff: The project will officially commence on October 31, 2025. This will involve an initial meeting to discuss project requirements, expectations, and to establish communication channels.

Minimum Viable Product (MVP) Delivery: The initial delivery of the MVP is expected to be on October 31, 2025. This will be the first major milestone in the project and will provide a basis for further development and refinement.

Testing Phase: Following the delivery of the MVP, there will be a quality inspection and acceptance phase. This is expected to take place within 5 business days of the MVP delivery. During this phase, the product will be rigorously tested to ensure it meets the project requirements and quality standards. Any issues identified during this phase will need to be addressed promptly.

Project Completion: The final version of the product is expected to be delivered on October 31, 2025. This will mark the end of the project.

Flexibility and Constraints:

While we aim to adhere to the timeline as closely as possible, we understand that there may be unforeseen circumstances that could cause delays. We are committed to maintaining open and transparent communication throughout the project to manage any changes to the timeline effectively.

However, it is important to note that the dates for the project kickoff and final product delivery are fixed and cannot be moved. Any changes to the timeline must not impact these key dates. We appreciate your understanding and cooperation in this matter.

Milestone	Description	Target Date
Project Kickoff	Initial alignment	October 31, 2025

MVP Delivery	First prototype	Initial delivery: 2025-10-31
Testing Phase	QA and user testing	Quality inspection and acceptance within 5 business days of delivery
Final Deployment	Production release	2025-10-31

5. Evaluation Criteria

Section VI: Evaluation Criteria

The purpose of this section is to outline the evaluation criteria that will be used to assess and score the proposals submitted in response to this Request for Proposal (RFP). The evaluation process is designed to award the contract not necessarily to the firm of least cost, but rather to the firm with the best combination of attributes based on the evaluation criteria.

1. Weighted Evaluation Criteria

The proposals will be evaluated based on the following weighted criteria:

Technical Capability (30%): This criterion assesses the proposer's technical proficiency and ability to meet the requirements outlined in the RFP. It includes the proposer's understanding of the project, the soundness of the proposed approach, and the feasibility of the proposed solution.

Pricing Competitiveness (30%): This criterion assesses the cost-effectiveness of the proposal. It includes the total cost, the cost relative to the benefits provided, and the proposer's ability to deliver within the budget.

Delivery Reliability (20%): This criterion assesses the proposer's ability to deliver the product reliably and on time. It includes the proposer's track record of meeting delivery timelines and the robustness of the proposed delivery plan.

Quality Assurance (15%): This criterion assesses the quality of the product and the proposer's commitment to maintaining high standards. It includes the proposer's quality control processes, certifications, and past performance on similar projects.

Customer Service (5%): This criterion assesses the proposer's commitment to customer service. It includes the proposer's responsiveness, communication, and problem-solving capabilities.

2. Required vs. Optional Capabilities

Proposers must clearly distinguish between required and optional capabilities in their proposals. Required capabilities are those that are essential for the successful completion of the project. Optional capabilities are those that would enhance the project but are not necessary for its completion. Proposals that do not clearly identify required and optional capabilities may be considered non-responsive.

3. Qualitative Factors

In addition to the weighted evaluation criteria, the following qualitative factors will also be considered during the evaluation process:

- The proposer's reputation for integrity and ethical conduct.
- The proposer's financial stability.
- The proposer's commitment to sustainability and social responsibility.

- The proposer's ability to innovate and adapt to changing circumstances.

Please note that this is not an exhaustive list and other qualitative factors may be considered as deemed necessary by the evaluation committee.

The evaluation committee reserves the right to seek additional information from proposers to clarify their proposals, if necessary. The committee's decision will be final and binding.

C	Weight (%)

| Technical Capability | 30% |

| Pricing Competitiveness | 30% |

| Delivery Reliability | 20% |

| Quality Assurance | 15% |

| Customer Service | 5% |

Non-negotiables:

Must be able to deliver to Buffalo, New York

Product must meet specification: 5052-H32 Aluminum Sheet 4x8

Pricing must be competitive and within budget: \$50 - \$450

6. Pricing Details

Section 5: Pricing Details

All vendors are required to present their pricing details in a clear, structured, and comprehensive manner. This section provides guidelines on how to structure your pricing.

5.1 Pricing Format and Currency

Vendors should provide a detailed line-item breakdown of costs. This should include unit costs and quantities for each item or service being provided. All prices should be quoted in United States Dollars (USD).

5.2 Contract Length

The contract length for this project is expected to be 1 year. Vendors should provide pricing that reflects this duration.

5.3 Cost Categories

Vendors are required to provide pricing details for the following cost categories:

1. Unit price for 5052-H32 Aluminum Sheet 4x8
2. Shipping and logistics to Buffalo, New York
3. Taxes and duties
4. Quality inspection fees (if applicable)
5. Rush delivery fees (if applicable)

Please provide a separate line item for each cost category in your pricing breakdown.

5.4 Volume Discounts

If applicable, vendors should provide information on any volume discounts that may be available. These should be clearly indicated in the pricing breakdown.

5.5 Budget Range

The budget range for this project is between \$50 and \$450. Vendors are requested to provide a pricing structure that falls within this range.

5.6 Payment Terms

The standard payment terms for this project are Net 30 days from delivery and acceptance. Vendors should factor this into their pricing structure.

Please ensure that your pricing structure is clear, detailed, and adheres to the guidelines provided in this section. Failure to do so may result in your proposal being disqualified.

Pricing Guidelines:

- **Currency:** USD
- **Contract Length:** 1 year
- **Required cost categories:**

Unit price for 5052-H32 Aluminum Sheet 4x8

Shipping and logistics to Buffalo, New York

Taxes and duties

Quality inspection fees (if applicable)

Rush delivery fees (if applicable)

Volume discounts (if applicable)

7. Submission Instructions

A proposal must include the following in their response:

- A brief history of the proposing entity, including general background and past deals.
- A statement substantiating the resources of the proposing entity and the ability to carry out the scope of work requested within the proposed timeline.
- Proposed fee structure, including billing rates, reimbursable expenses, etc.
- At least one example of work.
- A statement of conflicts (if any) the proposing entity or key employees may have regarding these services. If no potential conflicts of interests are identified, please state so.
- Preferred: References including contact information.

Submission Details:

- **Deadline:** TBD
- **Contact:** procurement@nexa.org
