

Request for Proposal (RFP)

Project Overview

Project Title: 'RFP for 5052-H32 Aluminum Sheet 4x8 Supply from Alro Steel to Nexa'

Client: Nexa

Industry: aluminum sheets

Date: October 25, 2025

1. Introduction

Introduction

This Request for Proposal (RFP) is issued by Nexa, a mid-sized enterprise specializing in aluminum sheets services. Nexa has established a strong presence in the industry, providing high-quality aluminum sheets to various businesses across different sectors. Our operations are centered around delivering top-notch products that meet the specific needs of our clients, while ensuring adherence to industry standards and regulations.

Currently, Nexa is seeking to expand its product line by creating aluminum beams. This endeavor presents a unique business challenge that requires a strategic solution. Our aim is to source 5052-H32 Aluminum Sheet 4x8, which will be instrumental in the production of these beams.

The strategic goal of this RFP is to establish a long-term partnership with Alro Steel, a reputable distributor of metals, industrial supplies, and plastics. We have identified Alro Steel as a potential supplier due to their extensive expertise in aluminum sheets. The partnership will involve Alro Steel supplying the required aluminum sheets to our Buffalo, New York

location.

The target budget for this project is between \$50 and \$450. We expect the delivery of the aluminum sheets by October 29, 2025. Through this partnership, we aim to enhance our production capabilities, expand our product offerings, and ultimately, drive business growth.

We look forward to receiving proposals that align with our strategic goals and desired outcomes.

2. Scope of Work

Scope of Work

The vendor is expected to deliver the following:

Tasks and Deliverables:

The vendor shall supply 5052-H32 Aluminum Sheet 4x8 from Alro Steel (Buffalo, NY). The price range for each sheet should be within \$125 - \$400. The delivery location is Buffalo, New York, and the expected delivery date is no later than October 29, 2025.

Technical Specifications or Required Standards:

The supplied product must meet industry-standard specifications and quality requirements. The vendor is expected to ensure that the 5052-H32 Aluminum Sheet 4x8 complies with all relevant standards and quality requirements.

Quantifiable Performance Metrics:

The vendor's performance will be evaluated based on the following key performance indicators:

1. On-time delivery to Buffalo, New York.

2. Quality compliance rate should be greater than 98%.
3. Competitive pricing within the range of \$50 - \$450.
4. Responsive customer service. The vendor should be reachable at 800-877-2576.

Additional Services:

Beyond the delivery of the product, the vendor is expected to maintain a consistent supply of the 5052-H32 Aluminum Sheet 4x8. The vendor is also required to provide regular quality reports to ensure continuous improvement and compliance with the set standards.

The vendor's commitment to these tasks, standards, and metrics will be crucial in ensuring the successful implementation of this project.

3. Vendor Qualifications

QUALIFICATIONS

The vendor must meet the following minimum qualifications to be considered for this RFP:

Experience: The vendor must demonstrate a proven track record in supplying 5052-H32 Aluminum Sheet 4x8 or similar products. We give preference to vendors like Alro Steel who claim expertise in aluminum sheets.

Certifications: The vendor must hold an ISO 9001 or equivalent quality management certification. In addition, industry-specific certifications, as applicable, are required. These certifications should be current and valid at the time of proposal submission.

Relevant Past Projects or Case Studies: The vendor should provide examples of past projects or case studies that demonstrate their ability to successfully supply 5052-H32 Aluminum Sheet 4x8 or similar products. These examples should illustrate the

vendor's ability to meet delivery timelines, maintain product quality, and manage logistics effectively.

Team Skills or Domain Expertise: The vendor's team should possess the following skills or domain expertise:

5. Expertise in manufacturing/distributing 5052-H32 Aluminum Sheet 4x8.
6. Quality control and assurance processes.
7. Logistics and supply chain management.
8. Ability to deliver to Buffalo, New York.

Technical support and customer service.

Compliance or Regulatory Requirements: The vendor must comply with all applicable laws, regulations, and standards related to the manufacturing and distribution of 5052-H32 Aluminum Sheet 4x8. The vendor should also demonstrate a commitment to ethical business practices and corporate social responsibility.

Please note that failure to meet any of these qualifications may result in the disqualification of the vendor's proposal.

4. Project Timeline

Section IV: Project Timeline

The following is the proposed timeline for the project, outlining key milestones, review points, and testing or integration phases. Please note that while we aim to adhere to this schedule, there may be some flexibility required due to unforeseen circumstances or project constraints.

Project Kickoff: The project is scheduled to commence on November 01, 2025. This will involve an initial meeting to discuss project objectives, deliverables, and to set the groundwork for the project.

Key Milestones: The major milestone for this project is the delivery of the Minimum Viable Product (MVP). This is scheduled for October 29, 2025. This milestone will be a critical review point where the project team will assess the functionality and effectiveness of the MVP.

Testing Phase: Following the delivery of the MVP, there will be a Quality Inspection and Acceptance phase. This will take place within 5 business days of the MVP delivery. During this phase, the product will be rigorously tested to ensure it meets the project requirements and quality standards.

Project Completion: The project is scheduled to conclude on October 29, 2025. This will mark the end of the project lifecycle and the final product will be delivered.

Please note that this timeline is subject to change based on a variety of factors including, but not limited to, project constraints, unforeseen challenges, or changes in project scope. Any changes to the timeline will be communicated promptly and clearly to all stakeholders.

Milestone	Description	Target Date
Project Kickoff	Initial alignment	November 01, 2025
MVP Delivery	First prototype	Initial delivery: 2025-10-29

Testing Phase	QA and user testing	Quality inspection and acceptance within 5 business days of delivery
Final Deployment	Production release	2025-10-29

5. Evaluation Criteria

Evaluation Criteria

The evaluation of proposals will be based on a weighted scoring system. The criteria for evaluation, along with their respective weights, are as follows:

Technical Capability (Weight: 30%): This criterion assesses the bidder's ability to meet the technical requirements of the project. Proposals should demonstrate a clear understanding of the project's objectives and provide a comprehensive strategy for achieving them.

Pricing Competitiveness (Weight: 23%): This criterion evaluates the cost-effectiveness of the bidder's proposal. Proposals should provide a detailed and itemized budget that demonstrates value for money.

Delivery Reliability (Weight: 27%): This criterion measures the bidder's ability to deliver the project on time and within budget. Proposals should include a realistic and achievable project timeline.

Quality Assurance (Weight: 15%): This criterion assesses the bidder's approach to quality management. Proposals should provide details of quality assurance processes

and procedures, including any relevant certifications or accreditations.

Customer Service (Weight: 5%): This criterion evaluates the bidder's commitment to customer service. Proposals should demonstrate a proactive approach to customer service, including a clear and effective communication strategy.

In addition to these weighted criteria, we will also consider qualitative factors such as the friendliness of the supplier. This includes their willingness to collaborate, their responsiveness to inquiries, and their overall attitude towards customer service.

It is important to note that while all capabilities are valued, the ability to meet the technical requirements of the project is a mandatory requirement. All other capabilities are optional but will contribute to the overall score of the proposal.

Please note that the non-negotiables listed in the RFP template must be met in order for a proposal to be considered. Failure to meet any of these requirements will result in the proposal being disqualified.

We look forward to receiving proposals that are comprehensive, competitive, and demonstrate a clear understanding of the project's objectives.

Criteria	Weight (%)
Technical Capability	30%
Pricing Competitiveness	23%
Delivery Reliability	27%

Quality Assurance	15%
Customer Service	5%

Non-negotiables:

Must be able to deliver to Buffalo, New York

Product must meet specification: 5052-H32 Aluminum Sheet 4x8

Pricing must be competitive and within budget: \$50 - \$450

6. Pricing Details

Section 5: Pricing Details

We kindly request all vendors to provide a comprehensive and detailed pricing proposal in response to this RFP. The pricing proposal should adhere to the following guidelines:

5.1 Pricing Format and Currency

All prices should be quoted in United States Dollars (USD). The pricing format should be a detailed line-item breakdown, clearly indicating unit costs and quantities for each item or service provided. This will allow us to understand the cost structure more effectively and ensure transparency in pricing.

5.2 Contract Length Expectations

The contract length for the proposed services is expected to be 2 years, with the possibility of renewal. Please structure your pricing to reflect this duration.

5.3 Cost Categories

The pricing proposal should include, but not be limited to, the following cost categories:

1. Unit price for 5052-H32 Aluminum Sheet 4x8
2. Shipping and logistics to Buffalo, New York
3. Taxes and duties
4. Quality inspection fees (if applicable)
5. Rush delivery fees (if applicable)

Please provide a detailed breakdown of each cost category, including any applicable unit costs and quantities.

5.4 Volume Discounts and Performance-Based Pricing

If applicable, please include any volume discounts or performance-based pricing in your proposal. We are interested in understanding any potential cost savings associated with larger orders or superior performance.

5.5 Budget Range and Payment Terms

Our budget range for this project is between \$50 and \$450. Please ensure your pricing proposal falls within this range. The payment terms will be net 30 days from delivery and acceptance.

We appreciate your attention to these pricing details and look forward to receiving your comprehensive and competitive pricing proposal. Please ensure that your proposal is clear, concise, and standardized to facilitate our review and comparison process.

7. Submission Instructions

A proposal must include the following in their response:

1. A brief history of the proposing entity, including general background and past deals.
2. A statement substantiating the resources of the proposing entity and the ability to carry out the scope of work requested within the proposed timeline.
3. Proposed fee structure, including billing rates, reimbursable expenses, etc.
4. At least one (1) example of work.
5. A statement of conflicts (if any) the proposing entity or key employees may have regarding these services. If no potential conflicts of interests are identified, please state so.
6. Preferred: References including contact information.
